

Professional Seminar on Pipe Condition Survey

21st May 2011

Event Report

The professional seminar, jointly organized by Hong Kong Institute of Utility Specialists (HKIUS), Hong Kong Association of Risk Management and Safety (HKARMS), Community & Construction Professionals' Development Centre (CCPDP), Hong Kong College of Technology (HKCT), and Commerce and Economic Development Bureau, HKSAR was held successfully on 21st May 2011 in room 107-108 of Etech Centre, Hong Kong College of Technology (Causeway bay Campus) which 42 participants had attended the seminar.

The Speaker, Mr.Philip Ferguson, B.Sc (UNSW) and fellow member of HKIUS. Philip has been involved in major condition assessment contracts for water mains in Hong Kong 2002.

The seminar highlighted the topic of pipe condition survey for Pressure Water Mains. It included the topic of the need for condition assessment, overview of the condition of mains, mechanisms that change the condition, methodologies for determining condition, some techniques that are used, future development – techniques, markets and regulators.

The seminar was interesting and informative which successfully delivered the knowledge to the attendees. It gave them insights towards the topic. We specially thank the speaker Mr.Philip Ferguson for sharing his valuable experience and the seminar ended with a round of loud applauds.

Full house of attendees at the seminar
