Limited

# Hong Kong Safety Conference 2013

Radical rethinking of safety leadership and construction planning towards excellence

The second IOSH (Hong Kong) Annual Safety Conference and 13th AGM cum Annual Dinner will be held, as last year, at The Salisbury – YMCA of Hong Kong. The Conference will bring together health and safety professionals, practitioners and advocates to discuss and share good practice and expertise. Reputable and experienced speakers will give presentations in safety leadership, with an emphasis on construction design management.

Safety leadership has an enormous role to play in fostering safety standards. As sizeable construction projects begin and businesses in Hong Kong face more demanding safety requirements, a radical rethinking of safety leadership, design and development is needed.

## Who should attend?

The conference will be relevant to executives, professional and managerial staff, particularly health and safety professionals and those with responsibility for health and safety at work.

## Why should you attend?

You'll learn about initiatives that you can use in your workplace to promote health and safety development in Hong Kong. The conference will provide an important forum for the meaningful exchange of ideas and an excellent opportunity to share ideas, network with colleagues, make new contacts and learn from others in the industry.

IOSH members are invited to attend the Annual General Meeting of Hong Kong Branch immediately after the conference to hear about the branch's priorities for the year, about IOSH in Hong Kong, and to see the new branch committee voted in. In the evening, join us with our honourable guests, guest speakers, branch committee members and other delegates at the annual dinner, taking place also at the same venue. Enrolment for the dinner can be made separately.
